

SHARP FIGHTING

Reported to be in progress between
Kuropatkin and the Japs

RUSSIAN TROOPS CHEERFUL

Kuropatkin's advance has been checked
by the Japanese but there has
been no general engagement

GENERAL KUROPATKIN'S ADVANCE CHECKED.

St. Petersburg, October 12th.—Severe fighting north of Yentai resulted in a temporary check of Gen. Kuropatkin's advance guard of which the Associated Press correspondent telegraphed the first news, is not regarded at the war office as indicating a general engagement. The latest official despatches indicating the disposition of the various corps show that the whole army is not yet in line of battle. The present engagement may be regarded as the result of a counter attack which an enterprising foe like the Japanese might be expected to make without any calculation to prevent the Russian advance.

WHERE A BATTLE WILL BE FOUGHT.

Gen. Kuropatkin's present superiority in numbers, it is said here, is bound sooner or later to compel the Japanese to fall back upon their strong positions within the triangle formed by Yentai, Liao Yang and Sykwanum. Everything points to that district as being the prospective scene of the decisive struggle of this year's campaign.

JAPANESE OPERATIONS.

Mukden, October 11th, via Tein Tsai, October 10th.—A crossing of the Laitse river east of Bensihu by Russian cavalry shows that the Japanese are retiring on their position at Liao Yang, and in the next of hills east of Yentai, as though they were still desiring a decisive action near Liao Yang. The Japanese after approaching the Hun river appear merely to hold Gen. Kuroki's late battle ground. It was quiet here yesterday.

The Japanese right is said to be guarded by a Japanese force. Beyond this point outposts of Cossacks are stationed but no encounters between the two bodies have been reported within the week.

In order to retake the lost ground, the Russians will have to make a road over a hitherto unmapped region, but the season being dry, is favorable to the task of road making.

The inactivity of the Japanese is not unusual. It recalls their retirement from the vicinity of Kaichow, before the battle of Vafango. It also recalls Gen. Kur's strategy through out the fighting in Motien Pass. The Japanese front has been situated on a line extending from Bensihu to the Yentai coal mines, and bending north in the centre toward Haa Pass.

SHARP FIGHTING FOR THREE DAYS.

Mukden, October 12th.—For three days there has been sharp fighting a little north of the railway town of Yentai, between Liao Yang and Mukden. The Russian advance is checked and the attacking force was compelled to retire to the north side of the Schilli river, but subsequently recovered to the south side of that stream where a terrific artillery fight was in progress. In military circles at St. Petersburg the fighting noted is not considered as being of the magnitude of a general engagement, such as is expected to come possibly within the next few days somewhere within a triangle indicated by lines connecting Liao Yang, Yentai and Sykwanum, decisive of this year's campaign.

RUSSIANS ARE CHEERFUL.

Wounded Russian soldiers who have been sent back to Mukden show by their cheerful ness the improvement that has been produced on the spirits of the troops by Gen. Kuropatkin's course in assuming the offensive.

London, October 12th.—The daily Telegraph's Cheloc correspondent says: The following touching message has been received from the Empress of Russia in response to a congratulatory message from the garrison of Port Arthur. "I am deeply impressed by your notable courage. With all my heart and soul I am with you this day."

ELECTRIC LIGHTS

A large gang of men are busy installing the new electric light machinery at the power house at present Mr. Gardner has had a gang of men at work putting in the engine foundations. These engines have arrived at the station and are being moved to the power house to-day. The work during the past couple weeks have been principally confined to the installation of one of the new generators. This is being put in first so that the full power can be turned on the electric light plant. It is expected that this will be completed by Monday and that the city lights will have their usual strength again.

Winnipeg Wheat

Commercial:

Manitoba wheat has declined in price in about the same measure as wheat in the American markets. This season the movement of our crop has been delayed by backward weather: dull, partly showery and without the drying atmosphere so much needed during the period of saving and threshing the crop. During September the movement of wheat was so small as to have little effect on the market except to prevent any idea of lower prices. Somewhat better weather for three days last week, and the advancing season, has caused shipments to suddenly increase, so that the number of cars inspected in the first six days of October is almost as large as the number inspected during all September.

The increasing movement naturally causes a weaker feeling in the trade. At the same time it seems evident that the bulk of the car shipments belong to farmers who are not selling their wheat. Therefore although there is a comparative plenty of wheat moving there is not much actual business doing, and shippers who get an opportunity of doing a little business find it difficult to buy wheat, unless they offer above the recognized market value, and even

then the quantity they desire to secure is not easily got.

This situation greatly restricts selling for forward delivery, which is usually very extensive at this season of the year when the bulk of the crop is put in motion towards the lake ports. Our prices for wheat in store at lake port elevators are running 14c to 16c per bushel under the price of the corresponding grades in Minneapolis, but we are still a little above export basis. Therefore our price must either decline a little yet or European prices must advance, or we must hold our wheat. The holding of our wheat depends on our farmers, and generally speaking they are in a position to do so if they see fit. From what we know very few of them care to sell at present prices, and all can carry their wheat over till the New Year or have it carried for them. Our prices at close of business to-day compared to a week ago show a decline of 11-2 to 21-2 on the higher grades, and practically unchanged on the lower grades, and we quote: 1 northern, 97-8c; 2 northern, 83-1-4 c; 3 northern, 82c; 4 wheat, 83-1-4c; feed wheat, 50-1-2c, and 2 feed, 50-1-2c. Spot or first half October delivery, October closed 97-1-2c; November, 96-3-4; December 94-3-4; May, \$1. All prices in store at Fort William and Port Arthur.

Ponoka a Town

Herald:

As we go to press J. A. Jackson advocate, informs us that he has received advice from the Department of Public Works, Regina, that Ponoka village has been incorporated into a town municipality from and after the 15th inst. F. J. Purdy has been appointed returning officer for the first election.

Telephones for C. & E. Towns

Herald:

The Calgary district manager of the Bell Telephone Company has announced the plan to establish exchanges in several towns along the north line, Lacombe and Olds will be the first places where these facilities will be arranged.

Biliousness

That torpid liver is bound to make trouble for you this summer, unless you cure it once for all. That's what ABBEY'S SALT is for—biliousness. It stirs up the liver—makes it work properly—cleans out the bile—strengthens the digestion—and regulates the bowels. No more bilious attacks as long as you take ABBEY'S SALT.

Being a granular, effervescent salt it can not contain alcohol.

25c. and 60c. bottles—at all druggists.

WEDNESDAY, OCTOBER 12th, 1904

WRECKERS!

E. R. Wood, managing director of the Central Canada Loan Company, and incidentally a director of the Bank of Commerce, and of the Grand Trunk Pacific, is credited by the Toronto News with saying that the Grand Trunk Pacific will be only from Winnipeg to the foothills of the Rockies between the Canadian Northern and the C. P. R., and therefore south of and not through Edmonton. The Journal newspaper, supporting the opposition candidates in Edmonton, in the present campaign, prints what purports to be the Toronto News report of Mr. Wood's views, and asks in big black letters across its front page, "Will Mr. Oliver contradict Mr. Wood?"

It will be time enough to contradict Mr. Wood when his statements or views appear on better authority than that of the Toronto News. In the meantime the facts will furnish all necessary contradiction as to the intentions of the Grand Trunk Pacific Company towards Edmonton.

From the inception of the Grand Trunk Pacific scheme, when Messrs. Morse and Wainwright visited Edmonton, until the present time, the responsible heads of the company have consistently and unvaryingly declared that the railway would be run by way of Edmonton, and that active operations would be begun at Edmonton at the same time as at Winnipeg.

The surveys which have been in progress since the September of 1903 have had their headquarters east of the Rocky Mountains at Edmonton. While tens of thousands of dollars have been spent in surveying a line or lines northwesterly from Edmonton to Peace river, and southeasterly from Edmonton to Winnipeg, not a cent has been expended nor has any exploration been made of or for any line that would not cross the Canadian Northern line at or near Edmonton and run through the Peace river country.

The fact that the Grand Trunk Company have spent a year's time and an immense sum of money in surveying by way of Edmonton through the Peace river district and to the Pacific ocean at or near Port Simpson, is a better contradiction of Mr. Wood's statements or views than could be given by Mr. Oliver or any one else not in control of the affairs of the company.

What was and must have been the purpose of Mr. Wood in giving out views—if he did give out the views published—which he knew were in direct contradiction of the publicly and repeatedly avowed policy of the company, backed up by the expenditure of a year's time and much money, when neither time nor money were to spare, for other than a useful purpose; and what is and must be the object of the Journal in circulating and emphasizing such a report?

Mr. Wood, as already said, is managing director of the Central Canada Loan and Savings Company. His business is to advance the interests of that company. His place among

the directors of the Bank of Commerce and of the Grand Trunk Pacific is only incidental. The Central Canada Loan and Savings Co. has no interests in Edmonton. Other similar companies of greater enterprise have come in and occupied the ground, helping greatly to build up the place. By circulating a report, discrediting the prospects of the place, Mr. Wood was able to discredit to some degree the enterprise of those other companies and to justify the lack of enterprise of his own. The loser in the merry game is the Edmonton property owner.

But Mr. Wood had special business when he was in Edmonton. He was acting for eastern investment companies who wanted to purchase Edmonton debentures at 40 per cent. He did not get them: They were sold to Montreal men at 43-4; and again, it is business on his part acting in behalf of those interests, from which his salary is drawn, to discredit the standing of Edmonton by trading on his position as nominal director of the Grand Trunk Pacific.

If Mr. Wood has given expression to the views with which he is credited by the News and the Journal, so much the worse for the credit and standing of Mr. Wood. But what about the party and the candidate which, as shown by the action of the Journal are thus ready to discredit the town for the sake of discrediting their political opponents.

The expression of belief in such a report by an Edmonton paper, on behalf of its party and its candidate, is more damaging to the standing of the town than the report itself. Those who are ready to avail themselves of such means to secure political success are not safe people in whose hands to trust the political future of the place. Whatever may have been the facts as between Mr. Wood and the News, in the first printing of his views, there is only one result that can flow from the circulation of that report, by an Edmonton paper, coupled with the expression of belief in its truth, and that is to take dollars off the selling value of every piece of property in the place—a high price to pay for the success of a candidate of the party of the opposition; but strictly in line with the price that Edmonton and the whole of the North-West had to pay for so many years while represented and governed by that party.

OTTAWA DOINGS

THE GOVERNOR GENERAL

Presents Kings Colors to the Canadian Militia. Lays Corner Stone of New Hall

Bulletin Special Dispatch.

Ottawa, October 12.—Lord Minto presented the King's colors to representatives of the Canadian Royal Infantry, the Royal Garrison Artillery, and the Royal Canadian Field Artillery. These are memorials of the South African campaign. His Excellency afterwards laid the corner stone of the new St. George Hall.

RAILWAY COMMISSION

COMMENDABLE CHANGES

In the Rules governing the operation of trains. To Minimize accidents

Bulletin Special Dispatch.

Ottawa, October 12.—The railway companies have agreed among themselves in response to a circular from the railway commission to draft a uniform set of rules to govern the operation of trains.

Hon. A. G. Blair and his colleagues are of the opinion that the enforcement of uniform rules will prevent frequent accidents involving loss of life and property. Roads will be compelled to introduce the block system wherever business is heavy enough to make it necessary. Automatic switch devices will be insisted upon so that semaphore will first show danger before such switch is opened. Head and light signals will be made uniform on all roads and rules will be introduced that no train man shall work more than a specified number of hours each day whether he wants to or not.

ANOTHER CANDIDATE

HAS BEEN CHOSEN

He will carry the Liberal Banner in Carleton County, Ontario

Bulletin Special Dispatch.

Ottawa, October 12.—James K. Caldwell, of Neepawa township, a wealthy farmer was yesterday unanimously chosen as the Liberal candidate for the county of Carleton.

ON A SMALL ISLAND

TWO THOUSAND COOLIES

And four Europeans from a disabled steamer. Provisioned for ten days

Bulletin Special Dispatch.

Singapore, October 12.—On Ma-roon a small island in the China Sea, with provisions for only ten days are 2,260 coolies and four Europeans. The steamer Swanet arrived here to-day badly damaged, and reported that she was bound from Hong Kong for South Africa with 2,260 coolies and four passengers on board and that on October 2 she grounded on Serais island, about seventy miles south of the Natuna islands. When the steamer floated three days after a number of holes were found in her bottom and she was obliged to land all her passengers.

THE FIRE CHIEFS

IN CONVENTION

In Vancouver. Chief Smart of Calgary President of the Association

Bulletin Special Dispatch.

Vancouver, B.C., October 12.—The twelfth annual convention of the Pacific Coast Fire Chiefs Association opened here yesterday afternoon, visiting members being welcomed by the Mayor, Chief Smart, of Calgary, president of the association, delivered the annual address and various routine matters were attended to, after which an adjournment was made till to-morrow morning. There is a large attendance present from cities as far east as Winnipeg, and all the principal cities of British Columbia, Washington and Oregon, and the North-West Territories.

Entertainment includes a banquet, ball, excursion trip on steamer and drive around Stanley park.

RAILROAD PROMOTER

FROM NEW YORK IN NELSON B.C.

He speaks of the construction of a Railway from Grand Forks to the Kettle River

Bulletin Special Dispatch.

Nelson, B.C., October 12.—Col. Jas. McNaught, railway promoter and builder and lawyer of New York, who was here on Monday, has under consideration the construction of a line from Grand Forks up to the north fork of the Kettle river, for a distance of fifty miles.

MILNER RESIGNS

AS HIGH COMMISSIONER

Of South Africa on account of ill health brought on by worry

Bulletin Special Dispatch.

London, October 11.—Lord Milner has resigned the high commissioner-ship of South Africa on account of ill health brought about by the prolonged strain in grappling with the situation, which is daily becoming more difficult owing to the financial and racial trouble in the country.

CREW IS GUILTY

THE WARRENBURG ACCIDENT

Was due to the carelessness of the Freight Train's crew in observing orders

Bulletin Special Dispatch.

Warrensburg, October 11.—The crew of the extra freight train which collided with the Missouri Pacific world's fair train yesterday, resulting in the death of twenty persons, is held responsible for the disaster by the coroner's jury, which returned a verdict to-night.

The verdict charges the crew with disobeying orders and with being asleep at their post of duty. No recommendation was made as to the punishment of the train crew.

NIGHT SERVICE 177

Phone 121

LOCAL

The brick work of the new city office buildings has been completed.

Walter's sawmill made the biggest run in its history on Monday, when it sawed 1,845 logs.

The Buchanan Stock Company will present The Deputy Sheriff in Robertson Hall this evening.

The C. M. B. A. are making arrangements to hold an entertainment in the near future. They are in correspondence with prominent entertainers.

The eighth annual convention of the Northern Alberta Teachers' Association will be held in Strathcona Thursday and Friday of this week, October 13 and 14.

At a short meeting of the city council last evening it was decided to proceed at once with surveying the alteration of Jasper avenue east, for the purpose of moving buildings on the new street.

Good progress is being made with the brickwork of the new malt house of the Edmonton Brewing and Malting Company. The first storey is almost completed and the work is being rushed forward with all possible dispatch.

A political meeting in the interests of R. Secord will be held in the Rink Theatre this evening. R. P. Roblin, Premier of Manitoba, will speak on behalf of Mr. Secord. Mr. Oliver will be present and will speak on his own behalf.

Splendid warm weather continues in Northern Alberta. The farmers who are not threshing are busy finishing their stacking. Not a single unfavorable crop report has been received from the Edmonton district. On the contrary, the grain where threshed, has turned out well the sample being especially fine.

During July 2,794 homesteads were entered for in Manitoba, the Northwest Territories and British Columbia, which represent 430,840 acres. This is but slightly less than the area of land taken up in the corresponding month last year which was the record year for homesteading in Western Canada. Entries at the respective agencies were as follows: Regina, 734; Edmonton, 308; Yorkton, 537; Alameda, 171; Brandon, 33; Prince Albert, 229; Dauphin, 12; Calgary, 191; Lethbridge, 193; Battleford, 277; New Westminster, 73; C. 3; Kamloops, B.C., 22. Total, 2,749.

The Joshua Simkins Company appeared in the Rink Theatre last evening. A great concourse of people gathered in the Rink. This was greatly due to the band parade which was held at noon yesterday. The company's band paraded Main street and rendered some good music. In the evening they again appeared and the people crowded to the Rink. The play certainly did not exceed the expectations of the audience. Some parts of the play were very good. The sawmill scene was a very tame affair. A splendid feature was the orchestra, whose musical selections were listened to with a great deal of pleasure. It is estimated that there was a five hundred dollar house. The company left for the south this morning.

WINNIPEG HAS DISASTROUS FIRE

The Bullman and Ashdown Blocks totally destroyed with a loss of about seven hundred thousand dollars. High wind fanned the flames.

Bulletin Special Dispatch. Winnipeg, October 12.—This city was visited by a most disastrous fire last night when the Bullman and Ashdown blocks on Main street were destroyed. When the fire broke out a high

THE tobacco plant is extremely sensitive to soil and climate.

There are certain localities in the world where

tobacco grows. Because of the climate and soil of these districts the tobacco of each is peculiarly adapted to certain and different uses.

Thus the Burmese leaf makes a good cheroot—from Virginia and Turkey we get good pipe tobacco—but for cigar fillers I know of no locality like the Manicaragua district, in the Province of Santa Clara, Cuba.

The superiority of this tobacco is due entirely to the soil and climate. When I tell you that I select the best leaves of this best favored spot—you can see the reason for my Pharaoh being a superior smoke—one with an aromatic fragrance—and delicate mellow taste.

Musical Education

Excellent training in Music can be obtained in Alberta College, Edmonton. The College has a full staff of specially qualified teachers in the different departments of music associated with Mr. Henry S. Hook, musical director and instructor in piano and theory, are—Miss Beatrice Crawford teacher in piano, Miss Ethel Webster teacher of voice culture and singing and Miss Edith Webster teacher of violin. Also there is a department of elocution and physical culture under the direction of Miss E. A. Bellamy, diplomaist Mount College, Toronto. There will be lectures, recitals, social meetings, etc., from which students will derive great benefit.

The business department is in full operation, day and night classes, diplomas awarded in stenography and book-keeping.

The new building is on First Street. Business and music open now. Arts and Academics October 1st. Intending students should register as soon as possible. For fees and particulars apply to the

MUSICAL DIRECTOR, PERCY S. HOOK
OR PRINCIPAL J. H. RIDDELL, B.A., B.D.
EDMONTON.

**The Canadian Northwest Homestead Regulations**

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clause 2, 3, or 4, must or substitute 20 head of stock, with buildings on their accommodation cultivate 30 acres of his homestead, and have besides 80 acres substantiated.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Home-Test Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

and many other varieties. We also have a full line of Fur Coats for men and Fur Collars and Fur Trimmings.

REVILLON BROTHERS STORES.

A THRIVING INDUSTRY

IN ENLARGED QUARTERS

W. H. Clark & Co. are building up an extensive establishment at the C. N. R. station site

The location of the Canadian Northern Railway yards in the north-west corner of the city has already induced several business firms to acquire property adjoining the station site. W. H. Clark has gone further than this, and is moving his entire lumber business to this section. Having secured four acres of land immediately south of the Canadian Northern station grounds, and at the head of Ninth street west, Mr. Clark has already several large buildings almost completed. Opening on to Ninth street are the mill and lumber yards which, consisting of four acres afford ample accommodation for an extensive establishment. Mr. Clark's present property on 1st street consists of three lots, 150 by 150 feet, which is almost in the centre of the city, and is naturally very valuable. However its size is not nearly sufficient to accommodate his rapidly increasing business and prospective additions, and Mr. Clark found it necessary to move out, purchasing this four acres in the north-east corner of the unsubdivided block of Hudson's Bay land in the west end of the city.

Mr. Clark's factory and lumber buildings will constitute one of the most complete and up-to-date establishments in the West. The factory proper, the warehouse, lumber sheds and boiler and engine room are all under construction. The factory is nearing completion and the warehouse practically complete.

The boiler room is 78 feet long by 33 feet wide. One part of this will be used as a blacksmith room. Below the boiler room an artesian well has been sunk to the depth of 140 feet where a good spring was struck. In this way an abundant supply of water will always be available. Leading off the boiler room is the engine room, two storeys, 35 feet by 16 feet. The upper part of this building will be used as a gluing room. The boiler and engine rooms will be constructed of solid brick. Machinery with a capacity of one hundred horse power will be installed.

The factory proper consists of two storeys, and is 100 feet long by 72 feet wide. This building is almost completed. An especially noticeable feature is that it is built on the mill construction plan, a particularly strong system. Four inch flooring is used in the building. The mill will be provided with the sprinkler system of fire protection. The building has five entrances as well as a small entrance to the foreman's office, which will be on the ground floor facing Ninth street. The building has been constructed with a view to having a large measure of light. Large windows of prismatic glass for throwing the light into the building, have been provided. An overhead bridge leads from the upstairs of the mill to the warehouse. An

outside stairway leads from the ground floor to the second storey. The latest mill machinery with labor saving devices, will be installed in addition to the machinery already being used in the old mill on First street.

The ware room, 88 feet by 48 feet is situated several rods from the mill. It is a two storey frame building, and is also built on the mill construction plan, and will be fitted with a sprinkler system of fire protection. In this ware room is the glazing room, 40 feet by 16 feet. To the rear of the glazing room will be used for a glass store room, 48 feet by 16 feet. The rest of the building will be used for storing sashes, doors, etc. A loading platform will be erected at the rear of the ware room.

Several rods to the rear of the ware room a comfortable stable has been erected.

Parallel with the ware room and a few rods north of it are the lumber sheds, 100 feet by 32 feet. This also has a loading platform at the rear. The Canadian Northern switch from their main line will run north and south at the rear of the warehouse and lumber sheds, and between the stable and these buildings a large drying kiln will be erected, adjoining the switch, so that British Columbia lumber can be loaded directly from the cars into the kiln. There have been frequent rumors that the C. P. R. have acquired the balance of this Hudson's Bay block of land for a station site, and if this is the case, Mr. Clark will have two railways right at the doors of his mill.

A large quantity of British Columbia and native lumber is now piled on the mill yards. The machinery in the new mill will be installed during

the winter, and next spring Mr. Clark's entire business will be transferred to his new location.

Mr. Clark has been operating for several months now a retail lumber establishment on the corner of 8th street and Jasper avenue. This yard will continue to be used for this purpose.

Novo Scotia Wool.

Novo Scotia sheep grow the best wool in the world. The climate and grazing give a strength, elasticity and silkiness to the wool, that cannot be duplicated anywhere else. The only underwear in Canada, made of Novo Scotia wool, is

Stanfield's Unshrinkable Underwear

The wool—process—knitting—workmanship—all combine to produce the best woolen Underwear Stanfield's. Every garment is guaranteed unshrinkable, by the only guarantee worth considering—"money back if unsatisfactory."

Wear "Stanfield's" this winter.

Dissolution of Partnership

Notice is hereby given that the
partnership formerly existing be-
tween Jas. McCausland and W. S.
Weeks, known as the Alberta Livery
Company has been dissolved by
mutual consent. The business will
be continued by Jas. McCausland, to
whom all accounts are payable forth-
with, and to whom all accounts a-
gainst the said firm must be sent
before October 15, in order that the
books of the firm may be closed.
